

Write a letter to someone in the future!

Imagine that it is 2040 and children at Malvern Primary School are asking about the coronavirus pandemic.

Write a letter to future children at Malvern telling them about what has happened.

What will you tell them about how the world changed overnight?

What do you think they'll find hard to believe?

How would you describe life in lockdown?

Tell them about the good and bad things about this time.

Include clapping for the NHS, the Rainbows.

What advice would you give them if they had to live through this time again?
