

# Mathematics at Malvern

## Maths Week England 2022

Maths Week England will return 14th-18th November and this year's theme is 'The Power of 2'. Maths Week England is grassroots movement which aims to share the joy of mathematics with everyone by providing young people in England with a positive attitude towards this vital and beautiful subject.

To celebrate, we will be completing brain teasers, using data, taking part in competitions and inviting children to come to school, on Wednesday 16th November, dressed as a Times Table Rockstar, Numbot or anything which celebrates the joy of numbers! Last year, we were blown away by the creativity of the outfits and the efforts of the children and I am sure that this year will be no different. I am super excited already!

# NUMBOTS

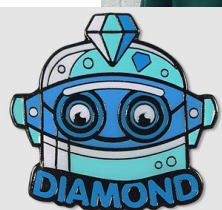

I am pleased to say that I have been super busy printing Numbots certificates since returning to school. It makes my Friday, each week, to see just how many of you are working hard to complete your Bots and collect your certificates and badges. A special well done to our reception children, who have already started to collect stickers on their charts.

Numbots is all about every child achieving the “triple win” of understanding, recall and fluency in mental addition and subtraction, so that they move from counting to calculating. Playing little and often has a huge impact on children’s automatic recall of number facts so please encourage your child to play at home.

Don’t forget to post a photograph of you with your certificate on to our Twitter page [@malvernprimary](#). We always love to see your achievements. If you tag [@numbots](#) too, you could even appear in [#RustysFriends](#). Will you be in the next edition?

Congratulations to all of the children who have achieved their badges during the summer holidays or since returning to school, in September. We are so proud of you and look forward to seeing you wear your badges with pride.

# TIMES TABLES ROCK STARS

## #100Club

I am extremely proud to say that we are still topping the charts with an impressive average school studio speed of 1.93 seconds. We now have an incredible 58 children, who have achieved Rock Hero status and 189 children at Rock Star status or above. With our children still determined to improve their score, even after achieving the highest ranking of Rock Hero, we introduced the 100 club. To become a member of this prestigious club, children must answer 100 questions in a sixty second window. Congratulations to all of our children who have secured a place in the 100 club so far. We are always looking for new members. Could you be our next member?

## England Rocks

As part of our Maths Week England celebrations. We will be taking part in England Rocks. The competition will take place between 14th—16th November between 7.30am—7.30pm.

Children can play in any game mode, with every correct answer to a multiplication or division question earning themselves, their class and the school a point. The Times Tables Rock Stars platform will calculate the class average, subject to a daily 60minute limit. Winning classes in the school and in the competition as a whole will be the ones with the highest average.

In the spirit of the competition, please do not play on your child's behalf but by all means, encourage and support them.

Thank you for your continued support. Let's Rock On!

**14TH -16TH NOVEMBER**

7:30AM GMT TO 7:30PM GMT DAILY

Winning class will have the highest number of correct answers per pupil.

PLAY IN  
ANY  
GAME TYPE

1-HOUR  
TIME LIMIT  
PER PERSON
