

Physical Education

Gymnastics Year 3

Unit Purpose

The unit of work will focus on exploring movements and balances in **symmetrical** and **asymmetrical** ways.

Pupils will create **sequences** starting with their symmetrical balance on apparatus, moving out of it and travelling to a new piece of apparatus and ending in their asymmetrical balances applying **flow**.

Inspire Me

Simone Biles is an American gymnast, five-time world champion and one of the most decorated gymnasts of all times. At the 2016 Olympic games Biles won 5 medals including four golds.

Key Success Criteria

- P** Pupils will execute 'excellent' balances and movements in both symmetrical and asymmetrical ways. Pupils will be able to link these movements and balances together.
- C** Pupils will develop life skills such as resourcefulness and evaluation as they create their sequences in pairs, making any adaptations when necessary.
- S** Pupils will collaborate showing cooperation skills with their partner as they work together to create their sequences and share apparatus space with others.
- W** Pupils will develop their resilience and ability to remain self motivated as they strive to improve their sequences even when they find it hard.

Vocabulary for Learning

Excellent gymnastics: 'Excellent' refers to when pupils are being silent, extending their fingers and toes and when they make a shape/balance are able to hold it still for at least 4 seconds.

Linking: This means successfully adding two movements together so that they flow one after the other.

Flow: This is when a gymnast moves from one action to another without stopping.

Interesting: This means pupils are thinking and being creative. This includes adding different levels and different connection points to their balances and/or movements.

Extension: This is when pupils are pointing (extending) their fingers and toes when moving or holding a balance.

Sport Specific Vocabulary

Symmetrical: Symmetry occurs when a balance or a movement is identical on either side.

Asymmetrical: Asymmetry means when a balance or a movement does not match on either side.

Physical Education

Gymnastics Year 4

Unit Purpose

The unit of work will focus on exploring **bridge** balances and the ways we can move in and out of them over and under them, on the floor and on the apparatus.

Pupils will create **sequences** combining movements and bridge balances in pairs, applying flow and challenging their creativity.

Inspire Me

Max Whitlock became Britain's first ever gold medallist in artistic gymnastics when he won both the men's floor and horse exercises at the 2016 Summer Olympics. He is the most successful gymnast in Britain's history.

Key Success Criteria

- P** Pupils will execute 'excellent' balances and movements within the 'bridges' theme. Applying flow, pupils will link these movements and balances together.
- C** Pupils will apply life skills such as resourcefulness and evaluation as they create their sequences in pairs, making adaptations when necessary.
- S** Pupils will collaborate applying cooperation skills with their partner as they work together to create their sequences and suggest ways to improve.
- W** Pupils will develop their resilience and ability to remain self motivated as they strive to improve their sequences even when they find it hard.

Vocabulary for Learning

Excellent gymnastics: 'Excellent' refers to when pupils are being silent, extending their fingers and toes and when they make a shape/balance are able to hold it still for at least 4 seconds.

Extension: This is when pupils are pointing (extending) their fingers and toes when moving or holding a balance.

Control: This refers to pupils being able to move their bodies silently.

Interesting: This means pupils are thinking and being creative. This includes adding different levels and different connection points to their balances and/or movements.

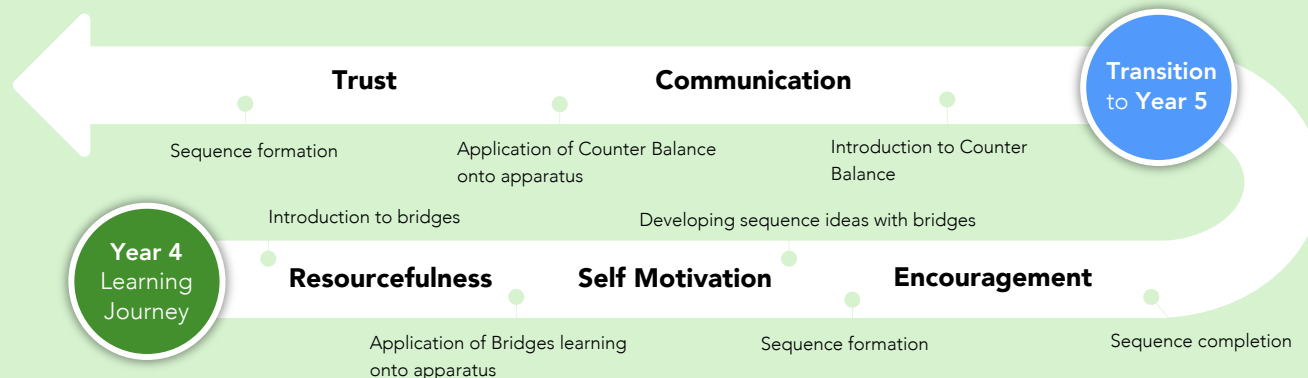

Sport Specific Vocabulary

Bridge: A bridge is a structure that passes over a road, a river or other obstacle. In this unit we want to recreate the idea of a bridge using our bodies.

Levels: This refers to when a gymnast is creating movements and balances that are performed using different heights either on the floor or on apparatus.

Flow: This is when a gymnast moves from one action to another without stopping.

Physical Education

Gymnastics Year 5

Unit Purpose

The unit of work will focus on exploring **Counter Balance** and **Counter Tension** balances on the floor and on apparatus.

Pupils will create sequences by consistently applying **flow** and challenging their **creativity**. Pupils will focus on the various ways they can construct the sequence and link the balances with movements.

Inspire Me

Nadia Comăneci is a Romanian retired gymnastics and five-time Olympic gold medalist. At the age of 14, Comăneci was the first gymnastic to be awarded a perfect 10 at the Olympic games.

Key Success Criteria

- P** Pupils will execute 'excellent' balances and movements within the Counter Balance and Tension theme, accurately applying flow as they link their balances with movement.
- C** Pupils will apply life skills such as evaluation and reflection as they recognise the strengths and weaknesses in their sequences and find ways to improve them.
- S** Pupils will demonstrate communication skills and show respect as they watch others' performances and give feedback on ways to improve.
- W** Pupils will apply integrity and self discipline as they perform their sequences and receive feedback. Pupils will then work hard to improve their sequences.

Vocabulary for Learning

Excellent gymnastics: 'Excellent' refers to when pupils are being silent, extending their fingers and toes and when they make a shape/balance are able to hold it still for at least 4 seconds.

Interesting: This means pupils are thinking and being creative. This includes adding different levels and different connection points to their balances and/or movements.

Flow: This is when a gymnast moves from one action to another without stopping.

Levels: This refers to when a gymnast is creating movements and balances that are performed using different heights either on the floor or on apparatus.

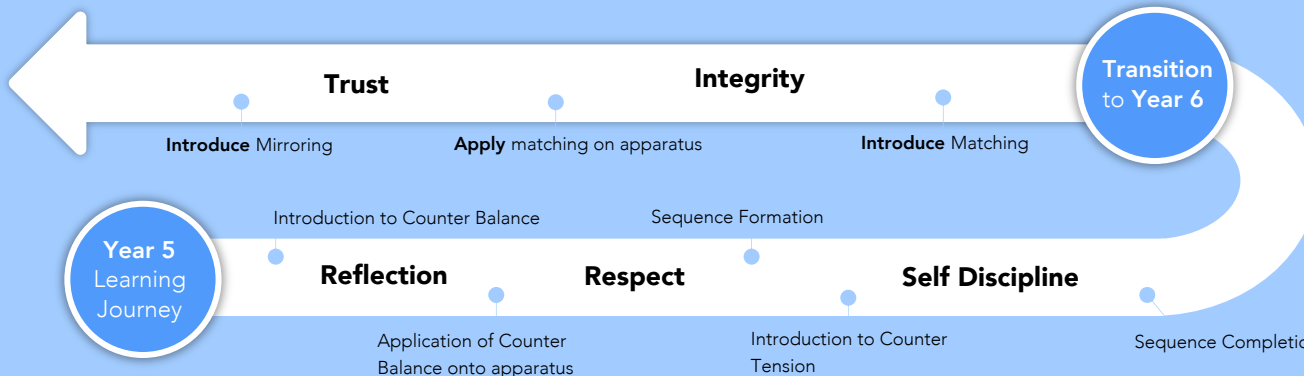

Sport Specific Vocabulary

Counter Balance: A counter balance is a pushing balance.

Counter Tension: A counter tension is a pulling balance.

Unison: Unison is where pupils perform the same movement at exactly the same time as each other.

Canon: Canon is where pupils perform the same movement one after the other.

Physical Education

Gymnastics Year 6

Unit Purpose

The unit of work will focus on applying "excellent gymnastics" through **matching** and **mirroring** movements.

Pupils will create a **sequence** of movements, bringing together a combination of both matching and mirroring movements, to create a sequence.

Inspire Me

Vitaly Scherbo is a former Belarusian gymnast and one of the most successful gymnasts of all time. Vitaly is the only male gymnast to have ever won a world title in all eight gymnastic exercises.

Key Success Criteria

- P** Pupils will create a sequence containing both matching and mirroring movements, executed with accuracy and fluidity using a range of apparatus.
- C** Pupils will effectively apply life skills such as evaluation and decision making as they identify strengths and weaknesses in their sequences and find ways to improve.
- S** Pupils will demonstrate respect and trust as they give and receive constructive feedback in order to improve their sequences and performances.
- W** Pupils will consistently apply integrity and self discipline as they perform their sequences and receive feedback. Pupils will strive to improve their sequences.

Vocabulary for Learning

Excellent gymnastics: 'Excellent' refers to when pupils are being silent, extending their fingers and toes and when they make a shape/balance are able to hold it still for at least 4 seconds.

Flow: This is when a gymnast moves from one action to another without stopping.

Levels: This refers to when a gymnast is creating movements and balances that are performed using different heights either on the floor or on apparatus.

Sport Specific Vocabulary

Matching: Matching is where pupils perform exactly the same movements at the same time.

Mirroring: Mirroring is where pupils perform their movements creating a mirror image of each other.

Unison: Unison is where pupils perform the same movement at exactly the same time as each other.

Canon: Canon is where pupils perform the same movement one after the other.
